## Baba + Boo

This is a fabulous nappy - beautiful designs combined with great reliability and fit.

This is a one size pocket nappy, with popper size adjustments on the front (which are colour co-ordinated with the nappy!). The two microfibre inserts are highly absorbent and quick drying. The inserts have poppers to change the size from small to medium to large as the baby grows.

The outer fabric is available in both soft laminate and minky covers (these are very soft and silky and make baby's bottom very strokeable!) It is laminated on the inside to make it waterproof and the microfleece lining helps keep baby dry and prevents staining.

The pocket is roomy so there is plenty of space for extra boosters if you need them (long journeys, night time etc.)

There are popper fastenings - all fastenings are also colour co-ordinated with the nappy fabric!

One size should fit from 8-35lbs/ 3.6- 16kg

### Hunny Highlights

- ✓ Beware - this will create nappy envy!
- ✓ Reliable with flexible absorbency - it comes with 2 sized 'grow with baby' absorbent pads
- ✓ Quick drying microfibre inserts
- ✓ Beautifully soft laminate or minky outers with fabulous patterns and colours
- ✓ Stay-dry microfleece layer against baby's skin
- ✓ Sturdy popper fastenings which last well

### Hunny Heads-up

- ! One size nappies get more wear than sized - something to keep in mind if intended for more than one child- but poppers do generally last well

### Nappy Do

- ✓ Pre-wash the nappy a couple of times before use
- ✓ Knock any solids into the toilet and flush away - rinse any residue off in the toilet flush
- ✓ Separate the inserts and nappy and store in a dry bucket.
- ✓ Wash at 40°C (or up to 60°C if necessary) in non-bio detergent (half your usual amount) plus sanitiser (see [Washing and Drying](#) info sheet)
- ✓ Cold rinse again once washing cycle finished
- ✓ Hang to dry. Can be tumble dried on low heat if preferred.

### Nappy Don't

- ! Do not use greasy rash cream unless using a paper liner to protect the nappy fabric from getting clogged up (see [Nappy Rash](#) info sheet)
- ! Do not use bleach or fabric conditioner. Avoid biological detergents.

### Hunny Hints

- ✓ These are nappy luxury at a very affordable price - and there's a bee print!....
