Lollipop Softee

A two sized shaped nappy uses 100% wellsoft microfibre to provide excellent absorbency in what is possibly the softest nappy on the market. No matter how often this nappy is washed it is always soft and snuggly against baby's skin. The teddy bear amongst nappies - the Lollipop Softee is a favourite both for its quick dry time and it's excellent absorbency for both day and night-time use. Special cross over tabs at the waist combined with snug elastic ensure a good fit and excellent containment even on newborns. An ideal nappy for parents wanting a super soft, absorbent nappy that will dry quickly. A fantastic all-round nappy!

Extra booster included with every nappy for more absorbency as baby grows - separate in size 1 to reduce bulk on newborns but attached for ease in the size 2.

Fastens with velcro style Aplix ('hook and loop').
