## Easyfit V3

Beautiful new version 3 'All-in-one' one size nappy with new exciting print and rainbow colour designs.

A really soft PUL outer gives a snug soft fit on even the skinniest legs. It must be one of the softest outers we have come across! It has a shaped, one piece design with elasticated legs & deep waist elastic for comfort. There is wick-proof edging to prevent leaks - this is a very reliable nappy. It is slim fitting with multi-directional stretch - fits like a glove every time! It has a 3-ply minky core with fold-out insert for good absorbency with quicker drying.

The inside of the nappy is very soft minky fabric - colour-coordinated with rainbows and white with prints.

The Easyfit can be used as it is or boosted for heavy wetters.

Easy Velcro-style hook & loop fastening or sturdy poppers.

One size from birth to potty - simply adjust the height using the poppers on the front.

8 -35lbs / 3.6 - 16kgs

### Hunny Highlights

- ✓ Pretty absorbent and very quick drying - 3.5 hours on airer
- ✓ Hook & Loop or popper fastening
- ✓ Plenty of room for booster pads
- ✓ Company has Ethical Consumer Best Buy Label
- ✓ Manufactured in Scotland - low nappy miles!
- ✓ Great prints and range of colours
- ✓ Incredibly soft waterproof outer

### Hunny Heads-up

- ! May not fit a large toddler
- ! Not suitable as a night time nappy unless boosted
- ! Hook & loop easier for toddlers to undo than poppers (although easier to put on a wriggly baby!)

### Nappy Do

- ✓ Wash nappies a few times prior to use to increase the absorbency
- ✓ Flush away solids - can pull out insert but will come out in the wash
- ✓ Store in a dry nappy bucket - do not soak
- ✓ Wash at 40°C or 60°C (follow the care label) in non-biological detergent (2 tablespoons is enough to get your nappies clean). You will also need to add sanitiser (or use a detergent specially formulated for nappies such as TotsBots 'Potion')
- ✓ Tumble dry on low heat or air dry
- ✓ See [Washing and Drying](#) info sheet

### Nappy Don't

- ! Do not use fabric softeners, bleach, stain removers, bicarbonate of soda or vinegar
- ! Do not tumble on high heat
- ! Don't use nappy creams without a liner (see [Nappy Rash](#) info sheet)

### Hunny Hints

- ✓ Once washed and dried, fold in absorbent core so the nappies are ready to go. A fabulous nappy and the new improved V3 is even better!
